WORD LIST-1 (FEB 07, 2022)

56. **C band (mid-band)** (noun) – The C band is a designation by the Institute of Electrical and Electronics Engineers (IEEE) for a portion of the electromagnetic spectrum in the microwave range of frequencies ranging from 4.0 to 8.0 gigahertz (GHz); However, the U.S. Federal Communications Commission (FCC) designated 3.7-4.2 GHz as C band. The C-Band (3.4 – 4.2 GHz) is a cornerstone/basis for many satellite services; This C-band (or mid-band) is the best RF spectrum for 5G deployment as well. The protection of the existing satellite systems operating in the C-band is crucial while allocating C-band frequencies to the upcoming 5G deployment, and to accomplish this, suitable spectrum sharing mechanisms need to be investigated.
57. **enable** (verb) – allow, permit; prepare, facilitate, activate.
58. **backhaul** (noun) – In the telecommunication industry, backhaul refers to the part of a satellite network that serves as an intermediate between the main network and the small networks used for distribution to other smaller channels. (Backhaul is a widely known term that describes the link between a baseband and the core network. Fronthaul, on the other hand, connects the baseband to a remote radio unit). (Baseband refers to a single-channel digital system and that single channel is used to communicate with devices on a network. Broadband, on the other hand, is wide bandwidth data transmission which generates an analog carrier frequency, which carries multiple digital signals or multiple channels).
59. **E-Band spectrum/airwaves** (noun) – the range of radio frequencies from 60 GHz to 90 GHz in the electromagnetic spectrum. Signals in this frequency range have very short wavelengths from 3.33 mm to 5 mm. The short wavelengths give signals at these frequency directional properties and thus this band is widely used for RF/Microwave backhaul links.
60. **pandemic** (noun) – the worldwide spread of a new disease; The illness spreads around the world and typically affects a large number of people across a wide area.
61. **show up** (phrasal verb) – expose, reveal, bring to light, lay bare, make obvious, manifest.
